BIENNIAL REPORT.

OFFICE OF THE AUDITOR OF PUBLIC ACCOUNTS,
SPRINGFIELD, ILLINOIS, *November 15, 1920.*

To his Excellency, Frank O. Lowden, Governor of Illinois.

SIR: I herewith submit to you a report of the transactions of the Revenue Department of this office for the fiscal years ended September 30, 1919, and June 30, 1920.

The annual report of the Building and Loan Department for the year 1919, has been issued, and the report for the year 1920 is now being published.

The report of the expenditures of the Fifty-first General Assembly has been duly published as required by the Constitution.

The reports of the transactions of this department have been published separately for each year, and are contained in statements which follow.

These statements do not contain any information in relation to the condition of State banks under the jurisdiction of this office, nor of building and loan and homestead associations, as these statements are published in separate reports, and to include them would be a repetition and needless expense.

State Taxes Levied.

The Fifty-first General Assembly by "An Act to provide for the necessary revenue for State purposes," approved June 28, 1919, authorized taxation to raise for general State purposes $14,000,000, and for State school purposes, $6,000,000 on the assessment for the year 1919, and for general State purposes $14,000,000 and for State school purposes $6,000,000 on the assessment for the year 1920.

The rate per cent required to produce the said amounts thus authorized to be raised for the year 1919, was in accordance with the provisions of said act computed by the Governor, Auditor of Public Accounts and State Treasurer as follows:

On each $100 of the equalized assessment for the year 1919:

For general State purposes, fourteen (14) cents;

For State school purposes, sixteen and one-third (16⅓) cents;

For University of Illinois Fund, six and two-thirds (6⅔) cents;

For Illinois Waterway purposes, three (3) cents.

Thus making the aggregate rate for State tax for the year 1919 forty cents on each $100 equalized assessed valuation of taxable property.

The tax rate for the year 1920 has not been computed up to the present time, for the reason that such rate cannot be ascertained until the Tax Commission has completed its work, and furnished the total equalized assessed value of property in the State for the year 1920.

Bonded Debt.

The principal of the bonded debt outstanding June 30, 1920, was $17,500 consisting of the following obligations which have long since been called in by the Governor's proclamation, and have ceased to draw interest:

New internal improvement stock	$ 4,000.00
New internal improvement stock payable after 1877	500.00
One old internal improvement bond	1,000.00
Twelve canal bonds	12,000.00
Total	$17,500.00

In the event any of the above items should be presented for payment, there is no appropriation available at this time out of which such payment could be made.

In addition to the above bonds which are now outstanding and unpaid, there is authorized a bond issue amounting to $60,000,000 for the purpose of constructing, repairing and maintaining a system of hard roads in this State, and an issue of $20,000,000 for the purpose of con-

structing a deep waterway. No bonds of either of these two authorized issues have been issued or sold up to the present time. The issue for the purpose of constructing and maintaining hard roads is to be paid from the revenue derived from licenses for motor vehicles, and not by direct taxation. The issue for waterway purposes is to be paid from funds derived from direct taxation, the law requiring that $1,000,000 of principal shall be paid each year, beginning with January 1, 1921.

Revenue.

The law abolishing the office of the town collector, and providing for the tax collections to be made by the county collector, is giving satisfaction in practically every respect. Some few complaints have been received from counties giving various objections, but I believe that in time these will work out for the best interest of all. One difficulty experienced, which I desire to bring to your attention, is the passage of two laws providing for penalties on forfeited property, by the last General Assembly. One act provides that the penalty shall not exceed 10 per cent, while the other act provides that the penalty shall not exceed 6 per cent. This has resulted in much confusion in the counties, as the officials did not seem to know which law to proceed under. This misunderstanding has resulted in a great amount of real estate being forfeited to the State by reason of the fact that there were no purchasers at the sale held in the various counties, the prospective purchasers refusing to bid at either per cent. A compilation of the cost of collecting taxes shows that the per cent is, according to the opinion of this office, entirely too high. The amount of taxes delinquent on account of insolvencies, removals, forfeitures and taxes in litigation continues to expand without any apparent reason.

It is the intention of this office to ask for an appropriation for the purpose of making an audit of the counties in their relations with the State, in order to ascertain this continually mounting cost of collection, which will in my opinion, reduce this cost, and result in a greater per cent of the tax being collected.

Receipts.

All fees and other moneys collected by the various branches of the State Government are promptly paid into the State treasury as required by law, there being no reason whatever to make comment on any one not complying with this provision.

Disbursements.

All payments of vouchers are promptly made by this office, permitting in many instances the taking of discounts that would otherwise be paid by the State.

Inventory of State Property.

More detailed information is being given in the inventories of State property, resulting in more accurate check. The only difficulty experienced is the delay of some of the divisions in getting the inventory written up and sent to this office for compilation.

Audit of State Offices.

In making the annual audits of fee collecting and disbursing offices, it has been found that in most instances the work is being carried on in a satisfactory manner, and that the suggestions of the auditors have been carried out in practically every instance.

Banks and Building and Loan Associations.

The reports showing the condition of State banks and of building and loan associations have been eliminated from this report, as such statements are contained in separate volumes showing all available information.

Respectfully submitted,

Andrew Russel,
Auditor of Public Accounts.
